

KAC NEWSLETTER

January 2018

Amy isn't just coasting out of 2017.

She's tried some new things at KAC and is really enjoying all of them! Recently, Amy expressed interest to train in the kitchen. Amy is learning all about the duties in the kitchen including stocking, cleaning, room set up and light prep work. Her great customer service skills can be seen as she waits on her friends at the counter as she learns to work the register.

Her customer service skills are also getting a work out through her volunteer work at Ridgewood Care Center. During her time there, she helps residents play BINGO and assists with art projects. She was a nail technician, offering free nail polish to residents during a recent "glam day".

Amy also helps residents in wheelchairs transport from their rooms to other locations in the building so they can participate in activities. Amy is always excited to visit Ridgewood and the staff and residents at the Center have expressed how much they appreciate her help!

Keep up the great work Amy. We can hardly wait to see what 2018 has in store for you.

New Year, New YOU!

KAC's mission is to create opportunities for personal growth and success by removing barriers, changing perceptions and building confidence. 2018 will be filled with opportunities for you in employment exploration, community activities, volunteer assistance and so much more. We look forward to helping you achieve your goals!
